SUMMARY

Recent BCA graduate currently pursuing an MCA at SRM University (online), with hands-on exposure across data analytics, programming, databases, and cloud infrastructure gained through academic projects, internship, and training. Comfortable working across Python, SQL/Oracle, Power BI, and Linux environments, with a strong problem-solving mindset and the ability to pick up new tools quickly. Seeking an entry-level opportunity to apply and grow these skills in a real-world setting.

EDUCATION

Master of Computer Applications (MCA) — SRM University, Online	2026 – Present
Bachelor of Computer Application (BCA) — Bishop Heber College, Tiruchirappalli	2023 – 2026

SKILLS

Programming: Python, Java

Web Technologies: HTML5, CSS3, JavaScript, React

Databases: SQL, PL/SQL, Oracle Database

Analytics / BI Tools: Power BI, Microsoft Excel, Pandas, Numpy, Matplotlib

Cloud: Microsoft Azure

OS / Tools: Linux, VS Code, Oracle SQL Developer

WORK EXPERIENCE

VDart Technologies Pvt. Ltd, Tiruchirappalli <i>Cloud Computing Intern</i>	Aug 2025 – Sep 2025
- Completed internship in Cloud Computing with hands-on exposure to Microsoft Azure Analytics Services - Learned Azure cloud fundamentals, server resource management, and basic cloud infrastructure operations	

TRAINING

Best of Breed Software Solutions India Pvt. Ltd, Bengaluru <i>Finacle Core Banking Training</i>	May 2026 – Jul 2026
- Worked with Linux/Unix commands for system navigation, file management, and process monitoring - Operated Oracle Database and executed SQL/PL-SQL scripts in a Linux-based server environment - Gained exposure to core banking workflows using Infosys Finacle	

PROJECTS

- Retail Sales Dashboard (Power BI)** — Built a 3-page interactive dashboard (Executive Summary, Sales & Geography, Customer & Product Insights) using **DAX measures**, **Power Query** transformations, KPI cards, and synced slicers
- FMCG Demand Forecasting & Stockout Risk Analytics** (Python, Oracle SQL, Excel, Power BI) — End-to-end analytics on 1,000 sales records; built an Oracle ETL pipeline and SQL queries; found that promotions increased average sales by ~2.5% and flagged ~29% of transactions as stockout-risk; built a forecasting model to estimate future monthly sales trends
- IoT-Based Smart Agriculture and Automated Irrigation System** — Built an automated irrigation system using IoT sensors and C programming for real-time soil-moisture and rainfall-based control

CERTIFICATIONS

- Fundamentals of Data Analytics — Infosys Springboard (Jun 2026)
- Microsoft Excel for Data Analyst — Infosys Springboard (Jun 2026)
- Microsoft Power BI — Infosys Springboard (Jun 2026)
- Java Essentials — Infosys Springboard (Jul 2025)
